

ENOUGH IS ENOUGH!!

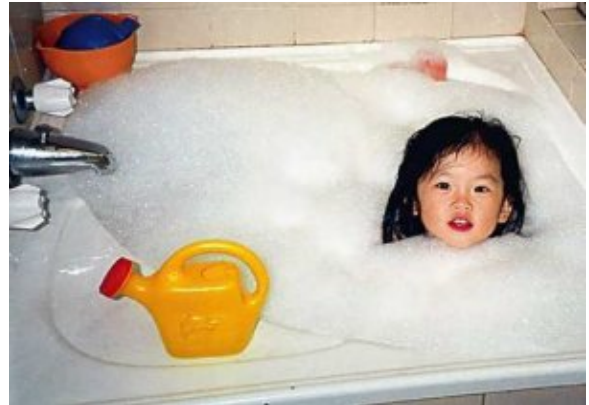

Friday June 10 – midday to 2pm

Martin Place Amphitheatre, Sydney

One year on from the deadline set by the Human Rights Commissioner for all children to be released from detention centres, we are still allowing children to be locked up and damaged IN OUR NAME! **Enough is Enough!!**

The Immigration Department should not need its own psychiatrists to point out that three year old Naomi Leong, who has been detained for her entire life at Villawood, would “fail to thrive” in that environment.

We have to wait until a little girl starts head banging before she is let out – to join other children at a playgroup, one morning a week. On her first outing she saw a goldfish for the first time.

Naomi has been released now, and so must every other child in detention.

On the day Naomi was released, Baby Michael Tran was born in immigration detention. There are currently seven babies in immigration detention who have been there since birth, as Naomi was. Must these seven babies also endure 3 years behind the wire? **Must these seven babies also start to bang their heads against the wall like Naomi?**

If you are appalled that 68 innocent children in Australia and 6 in Nauru continue to be locked up indefinitely, damaging them and flouting human rights treaties we have willingly signed, take a stand!

When: Friday June 10 – midday to 2pm
